Hello, I'm getting in touch with regards to my husbands great aunty Sabine.

Sabine along with her twin sister Honoray arrived in Britain on 18/10/1937 with the basque children. She was a teacher that supported and looked after the children during and after the voyage, a great responsibility for so many children and she often spoke of them throughout her life and never forgot them. Sadly Sabine and her sister are now deceased but we wonder if anyone can remember them? We also feel she has a place within your records.

I've attached her registration card for your reference.

Kind Regards  
Jen Robinson
